# Infistack

Delivering EXCELLENCE
since 2014

Infistack

Founded in 2014, Infistack has been at the forefront in helping startups, enterprises, and established brands to reimagine and reinvent their business aligned with current trends that demand digitization. Our core team of tech evangelists and experts have evolved consistently to provide them with an engaging digital experience, delivering feature-rich robust solutions and to global clientele.

Combining intelligence with workplace professionalism, in-house training and learning, Infistack has integrated engineering excellence with human values seamlessly. Our team of talented developers are technocrats who are always aligned with the latest trends, adapting to new scenarios.

By harnessing the power of engineering, we aspire to create a better digital world, aiding brands to navigate their journey towards the future. We also transcend innovative ideas of people to reality with the help of our tech expertise, and continue to create new technology solutions based on the needs of tomorrow, today.

Our long-term relationships with our clients is testimony to the consistency, clarity, and cost-effectiveness of our offerings with due focus on being a valued partner than a service provider. Connect with us today to know what sets us apart from the competition.

VISION STATEMENT

Infistack envisions itself to be a global leader in offering pertinent digital transformation solutions for diverse domain-specific clients, firmly establishing robust and strong leadership roots in varied technology avenues, disciplines, platforms, and solutions.
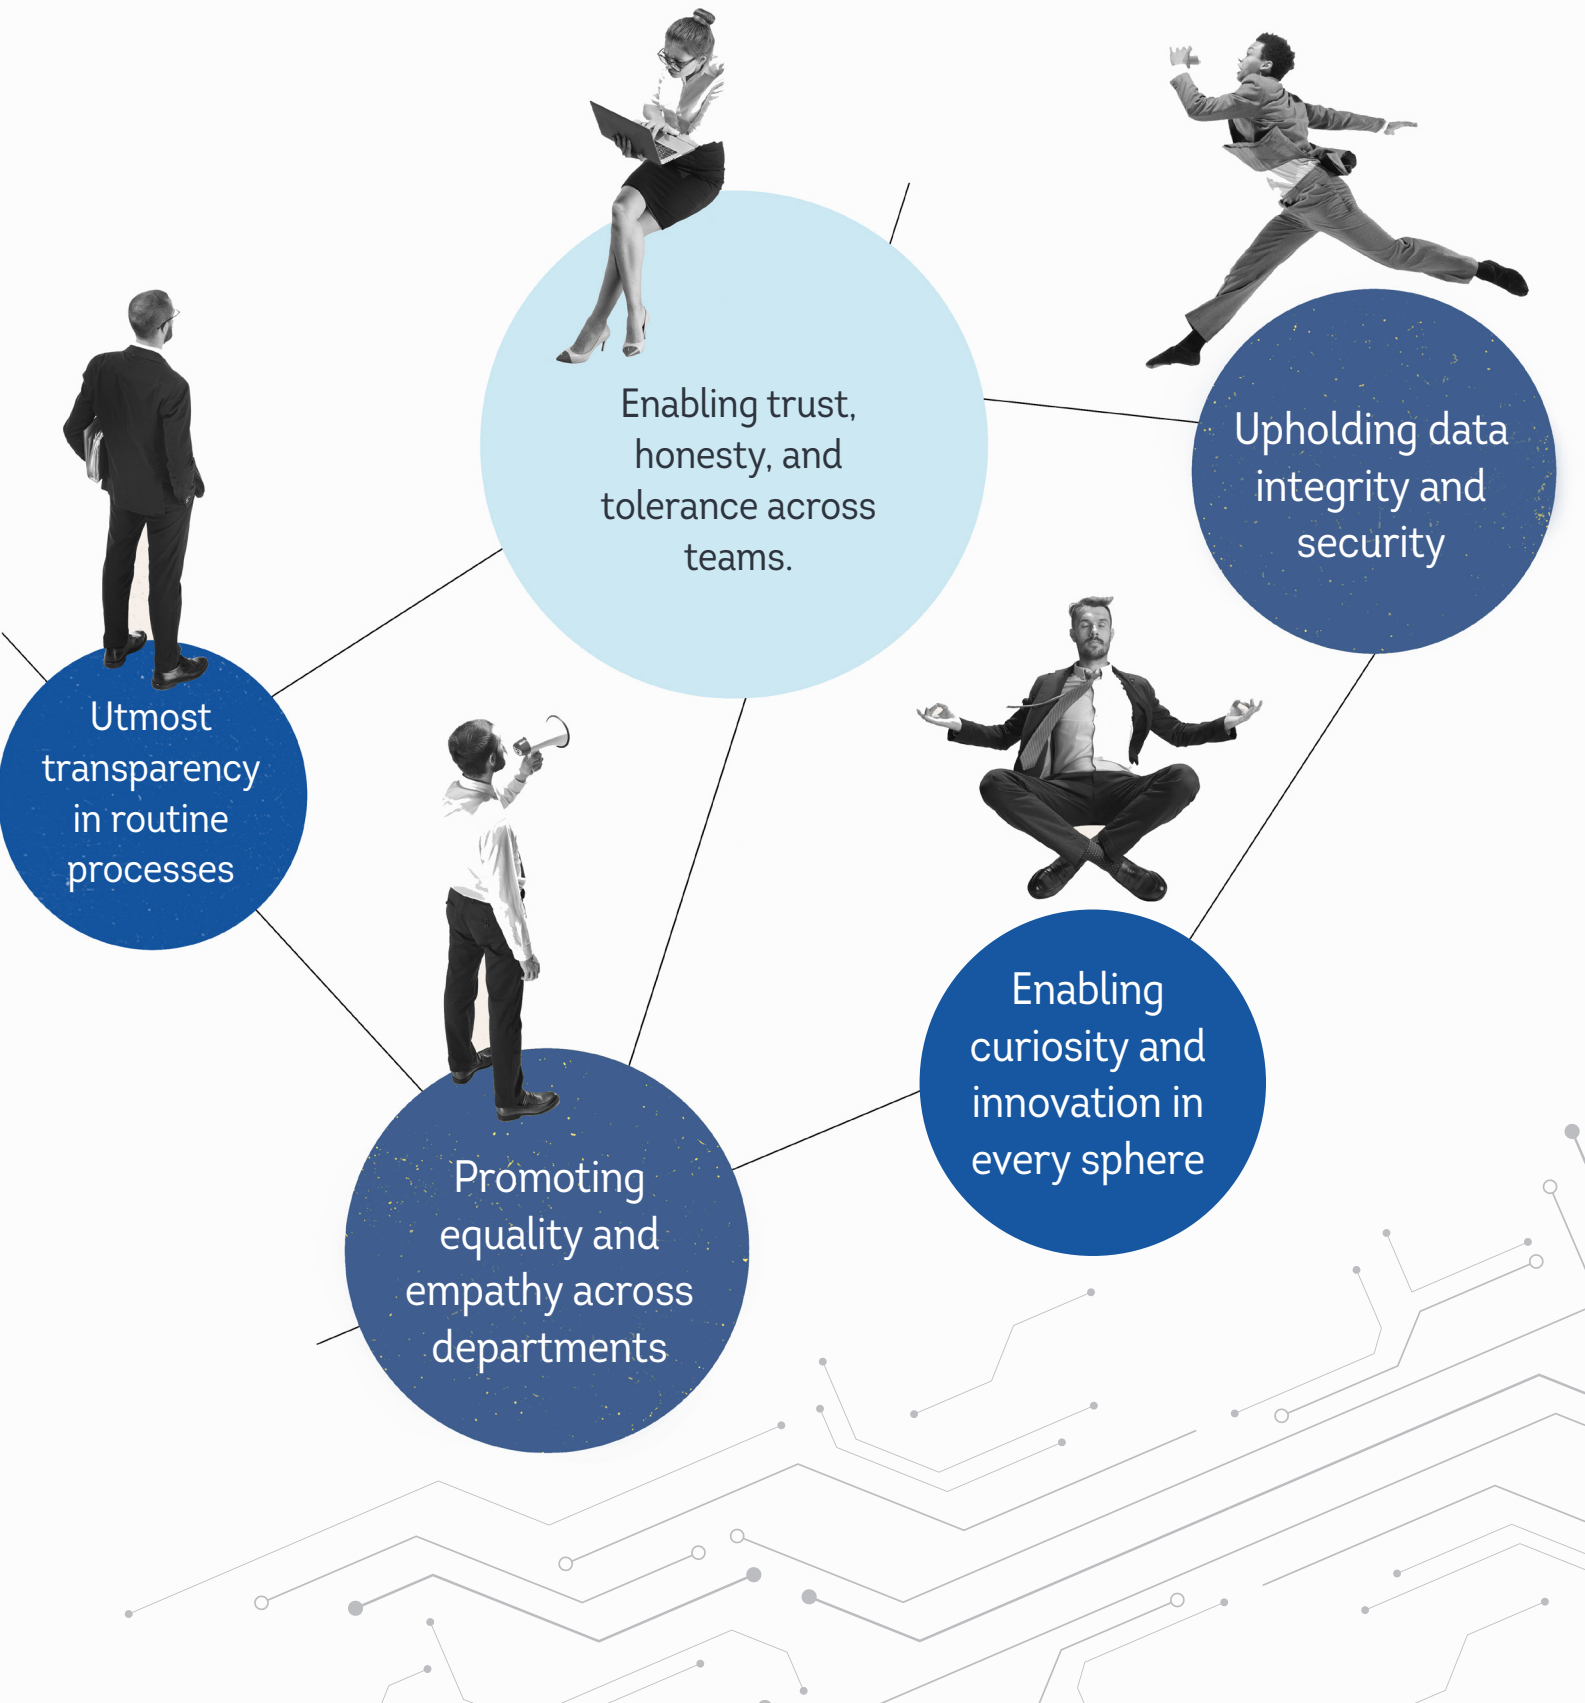

MISSION STATEMENT

We seek to empower our client's business like no other with smart technical solutions tailored to their needs, and aligned with digital marketing trends. Our mission is to maintain international standards and quality practises while securing customer relationships.

HOW WE WORK

Initial Assessment & Ideation Understand high-level requirements and ideate on a plan of execution and implementation.

Detailed Analysis Thorough requirement analysis aided by Subject Matter Experts, surveys, and focus groups.

Project Scope We discuss the project expectations and its scope based on client priorities, team member roles and budgetary timeline.

Prototype & Design Our skilled solution architects propose a prototype that mimics the end solution, outlining business process and technology recommendations.
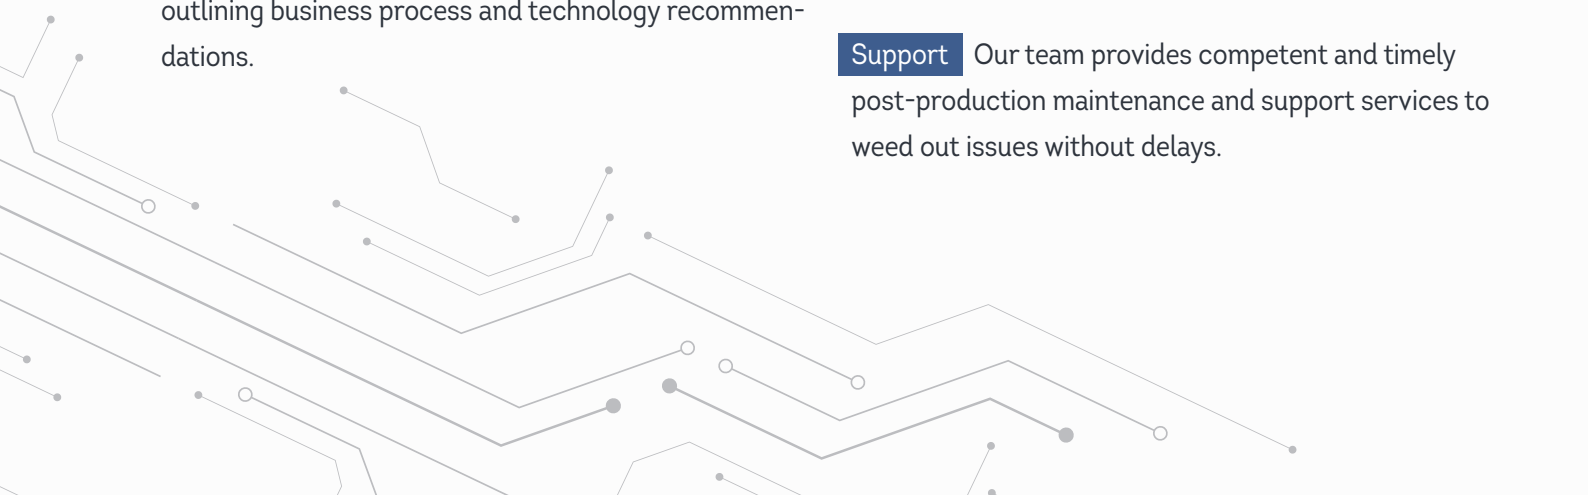

Project Priorities and Schedule We review priorities and dependencies and present a project schedule that aligns with client preferences.

Development, Testing, and Deployment Our team of developers and testers match project size and budget, depending on automated SDLC processes with time.

Go-Live We deliver the product launch including the marketing outreach, end user support, and monitoring of applications to go live.

Support Our team provides competent and timely post-production maintenance and support services to weed out issues without delays.

WHY CHOOSE INFISTACK?

PERFECT WORK CULTURE

Our work culture is homogeneous and harmonious owing to our liberal standards of operation with equitable distribution of tasks, and equality in our policies.

SMART AND TAILORED SOLUTIONS

We promise to deliver smart and tailored solutions to address business issues to the tee, on time, and within budget, without compromise on quality

COMMITTED AND DEDICATED

Our group of dynamic engineers and other professionals are committed to the assigned projects and consistently dedicated in resolving client issues satisfactorily

EXPERIENCED TEAM

We are aided by an experienced group of professionals who are well-versed in varied domains, technologies, and operations, making us a perfect fit as a technology partner.

PROFESSIONAL APPROACH

Our professional approach to meeting client requirements stands us in good stead in delivering the goods in a timely manner, without hassles.

QUALITY ASSURED

Our deliverables are qualitative irrespective of the timelines involved, as we seek to offer bug-free solutions that are robust and secure in their identity.

STRATEGIC THINKING

Our strategic thinking and business acumen has helped us deliver business-specific tech solutions that stand the test of time!

HONEST & PRECISE DELIVERY

Our honesty shines through in the accuracy and precision of our deliverables that ensures that our team delivers on their commitment and promise.

INNOVATIVE AND INVENTIVE

We use innovative methods and inventive methodologies to meet complex needs with dexterity and depth, making no qualms in getting our hands dirty to get things done.

QUICK SUPPORT

We do not keep our clients hanging in need of support and our quick on our feet to render support at any point of time, even offering consistent maintenance solutions in a periodic manner.

SUCCESS STORIES

We approached the Infistack team for developing a module for our real estate application and to our surprise, they delivered before deadlines. Kudos to the team for setting an example."

JOEY. K

With a spectacular turnaround time, I am overwhelmed by the speed and quality being delivered on time. Will definitely get back for new projects.

BRANDON. N

Kashyap is a thorough gentleman who brings class and precision to the fore. His team at Infistack is one of a kind!

SYLVIA. R

Had to change three vendors for mobile app development of a new business utility. Finally, Infistack delivered a robust and secure app. In time too... Loved the design and immediate service. Kudos!
